Audio-visual integration in the realms of

hospitality and leisure

comprehends diverse applications that have **common requirements** while also calling for **dedicated, custom tailored solutions**.

These applications often include **sound reinforcement** for facilities such as restaurants, hotels, wellness or fitness centers, and day or nighttime entertainment attractions. We recognize the importance of **specialized, enduring systems** that **seamlessly integrate, are effortlessly manageable, and boast a sleek, unobtrusive design**.

This guide explores common challenges and unveils the **innovative solutions** **K-ARRAY** provides. K-array adopts a unique approach, strengthened by seamless collaboration with distinct brands including: **KSCAPE**, which integrates light and sound into a single product for architectural lighting installations. **KGEAR** extends K-array's catalogue

of unique and cutting-edge solutions with smarter, more traditional options. While maintaining K-array's high audio quality standards, KGEAR offers system solutions that are particularly valuable when budget considerations are paramount. These synergies equip integrators with comprehensive tools to address challenges effectively.

“

Our goal is to elevate
the audio-visual
experience across
diverse sectors,

**turning obstacles
into opportunities**

for a memorable guest
experience through
sound and light design

In the realm of hospitality and leisure, where functionality merges with finesse to craft visually appealing and acoustically excellent environments, the integration of sophisticated audio systems poses a unique challenge. With K-array's innovative audio solutions, professionals in the Hospitality & Leisure industry can overcome these common challenges and create immersive, memorable experiences for their guests.

By carefully considering the unique needs of each space and harnessing K-array's advanced technology, you can achieve a harmonious balance of aesthetics with functionality and exceptional sound quality.

Enhancing guest experiences through advanced audio solutions

Perfect for Hospitality & Leisure applications, K-ARRAY's solutions deliver sound reinforcement, noise control, and speech clarity.

Easy to set up with products that are appreciated by sound designers, architects, and tech installers.

Suitable for hotels, bars, fitness centres, cruise ships, and casinos, K-ARRAY's technology offers exceptional sound and stunning design while setting the perfect atmosphere.

Optimising ambience with K-ARRAY's Smart Audio Solutions

For an unforgettable guest experience, K-ARRAY's audio solutions seamlessly blend design with functionality, and sound quality. Their customizable, inconspicuous systems cater to a variety of leisure spaces.

Using Pure Array Technology, they provide even, consistent sound, perfect for creating the ideal ambience.

PURE
ARRAY
TECHNOLOGY

Combining audio coverage, engaging content and cost saving

Multiroom audio control is essential for setting up separate audio zones in a property, offering customized sound experiences for guests. With K-array intelligent amplifiers and user-friendly interfaces, you can create a smart and easy-to-use sound system. This allows for

individual control of volume and content in each area, adapting the sound to specific preferences. You can switch between various sources like streaming services and music libraries, saving on equipment costs.

Durable audio options for outdoor & Marine space

K-ARRAY's **durable** audio solutions address the challenges of outdoor leisure spaces. Their **compact, high-quality loudspeakers** ensure optimal coverage and longevity. Built with **water and salt-resistant** materials, their specifically treated loudspeakers and subwoofers are

perfect for marine settings, minimizing waste from replacements. K-ARRAY's Pure Array Technology offers quality, directional sound, reducing audio spill and outdoor noise pollution.

Elevate the Ambiance with Discreet and Customizable Audio Solutions

Integrating high-quality audio solutions while preserving the aesthetics of any space is crucial for creating exceptional experiences in the hospitality and leisure industry.

Discreet and customizable audio systems seamlessly blend elegantly into various environments, enhancing most ambiance without compromising design.

Innovative technologies offer a range of colors, finishes and

mounting options, catering to hotels, restaurants and leisure facilities. Trust in the perfect balance of design and sound to deliver immersive and memorable experiences tailored to your guests' unique requirements.

Software

Complete audio ecosystem by K-ARRAY Group

K-ARRAY Group is revolutionizing the audio solution landscape by offering an integrated ecosystem that combines the strengths of **K-ARRAY**, **KGEAR**, and **KSCAPE**. This holistic approach ensures a seamless user experience, from hardware to software, underlining our commitment to being a one-stop shop for diverse audio

needs. Emphasizing ease of control, we introduce the newly designed K-Control app. This innovative software features a customizable dashboard, allowing for tailored user experiences per project. It is a testament to our dedication to user-friendly, accessible, and efficient control over audio setups.

Solution for challenging or existing installations

Refitting audio equipment in hospitality and leisure settings can be challenging, especially when dealing with historic or listed buildings. K-ARRAY's point-source loudspeakers simplify wiring and offer outstanding sound.

Communication and Sound Intelligibility

Clear communication is vital in hospitality for a positive guest experience. K-ARRAY's products optimize speech intelligibility from hotel announcements to fitness classes.

Buildings needing voice alarm systems must comply with EN 54. Choosing EN 54-24 compliant audio equipment ensures adherence to industry regulations, providing a secure environment.

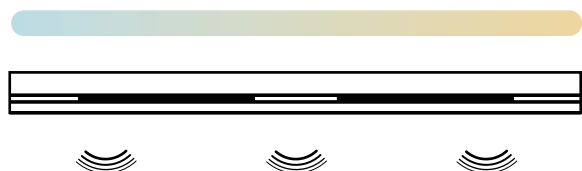

Feel the Light

Light significantly impacts our daily activities and how we perceive the spaces in which we live and work.

A proper **lighting design** allows for the creation of **comfortable and aesthetically pleasing** environments. **Harmony between architectural spaces and lighting** is crucial, and to achieve this, **cutting-edge lighting products** are required.

KSCAPE systems provide the perfect solution to this challenge, thanks to their **wide range of mounting options, optics, and control systems**. They enable the creation of integrated, engaging, and well-designed spaces.

Match the combination between **the audio and the light technology**

KSCAPE is committed to creating integrated systems of various technologies, which offer customers, integrators, and specifiers unique and cutting-edge products.

Creating a **unified ecosystem** between environmental audio

and lighting is an engaging and exciting challenge.

The RAIL system allows for the creation of an **emotional and immersive environment** with a single product in which **sound and light coexist** and seamlessly integrate into the architectural space.

Enhance Your Guests' Experience with K-ARRAY

Creating the perfect ambiance for guests is crucial. Audio plays a significant role in shaping their overall experience, whether they are staying at a hotel, dining at a restaurant, or enjoying a workout at a fitness center.

Facility managers, system integrators, audio tech installers, AV integrators, architects, event planners, owners, and interior Designers face unique challenges in designing audio systems that cater to various needs and preferences, while maintaining aesthetic appeal and seamless integration with the environment.

K-ARRAY offers versatile and innovative audio solutions to help professionals create the ultimate experience for their guests.

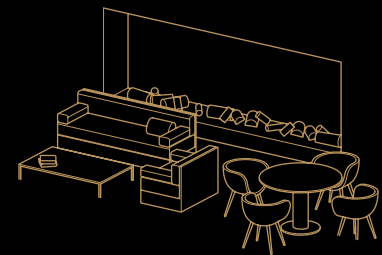

Large-scale hospitality settings with multiple rooms across floors require versatile solutions. K-ARRAY's slim loudspeakers and subwoofers integrate seamlessly for a stylish atmosphere, and sound masking prevents audio bleed from communal areas. Their discreet in-wall loudspeakers and line array systems offer high-quality sound for guest rooms, event spaces, and clear staff announcements.

In leisure settings, a flexible, quality audio system is vital. K-ARRAY's Slim Array Technology offers clear speech and even sound for fitness classes, while discreet in-ceiling loudspeakers provide unobtrusive background music. Their Marine products resist wear in aquatic environments. Existing systems can be easily upgraded with Domino full-range loudspeakers, eliminating extensive modifications, and improving audio.

Envelop Your Space in KSCAPE's Sonic & Lighting Symphony

In the Hospitality & Leisure industry, creating a **captivating atmosphere** for guests is **essential for delivering memorable experiences**.

KSCAPE offers a distinctive selection of **audio-lighting solutions** specifically designed for various applications within this sector, including hotels, resorts, restaurants, bars, cafes, fitness centers, and casinos. Our **unique product lineup** empowers industry professionals to address common audio challenges while enriching the ambiance of their spaces through the seamless fusion of light and sound.

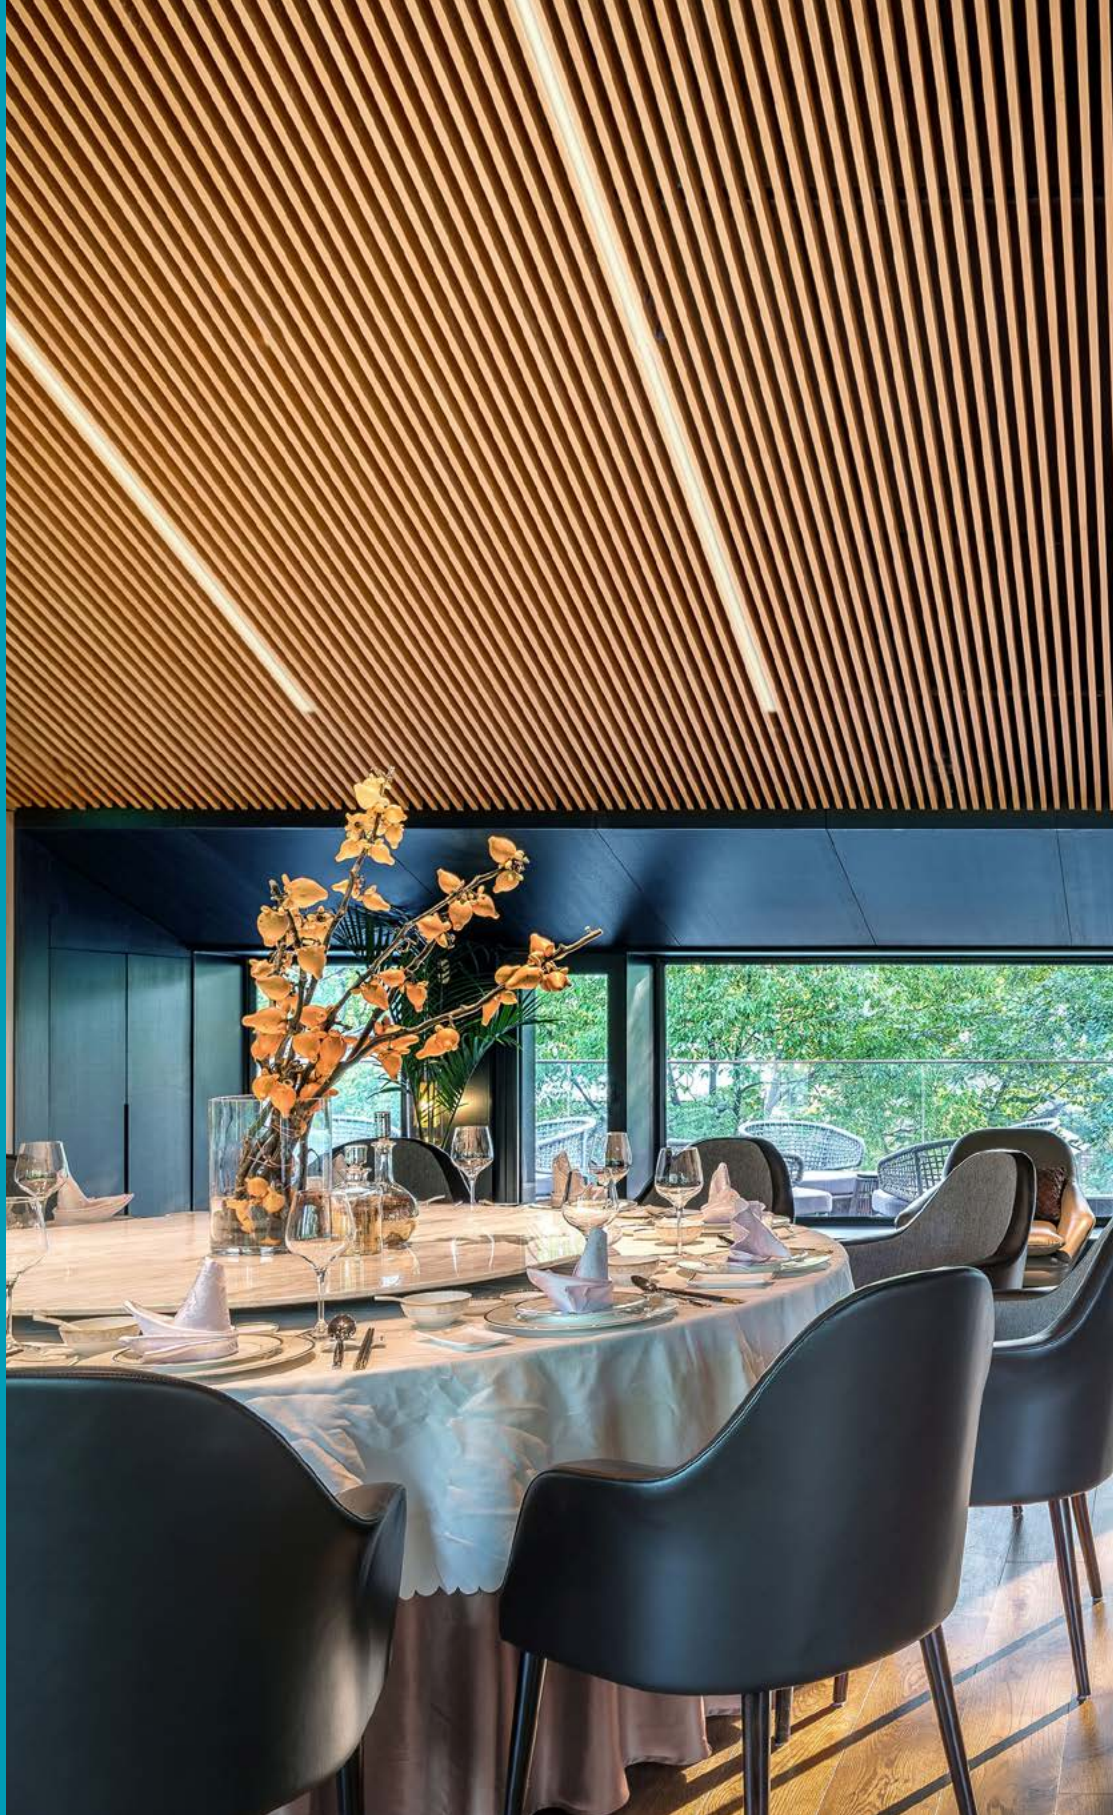

With KSCAPE, you can **elevate your projects by crafting visually and audibly immersive environments** tailored to your guests' needs.

Equip hotel lobbies, guest rooms, and conference facilities with KSCAPE's audio-lighting solutions, providing clear and balanced audio while enhancing the visual atmosphere.

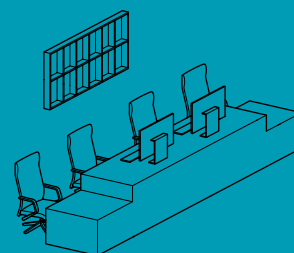

Implement KSCAPE's audio-lighting systems for intelligible communication in public spaces.

Create immersive experiences in hotel spa areas with KSCAPE's combination of soothing audio and adjustable lighting.

K-ARRAY WARRANTY

K-array surl warrants its products against defects in material or workmanship. The term of the K-array surl Warranty is five years from the original date of purchase of the product and their accessories. This warranty may be transferred to a subsequent owner during the warranty period. However, such a transfer shall not extend the warranty period beyond the original warranty period of five years from the original date of purchase stated on the invoice from the distributor to the end client.

IMPORTANT:

The configurations showcased in this Catalog are just examples, they don't represent existing projects. While not representing real projects, they can serve as inspiration for what's possible. Dive into our K-array Lookbook to explore specific, well-designed audio projects. Have a project to share? Send your materials to marketing@k-array.com, it might be selected for our next Lookbook.

LEGEND:

In accordance with its policy of continuous product development, K-array reserves the right to introduce any changes to its products without prior notice. Materials, colors and data presented in the catalog are only for reference. K-array is available to customize systems, finishes and new applications upon request.
